ARCHITECTURE; CCM ARCHITECTURE & CONSTRUCTION; ANDERS LASATER ARCHITECTS; CHAD ARLETON

1. KONSTRUKCIO STUDIO DALLAS + FORT WORTH
This 1945 Fort Worth abode underwent a significant interior and exterior renovation, with highlights including the addition of a front entry, new siding on the façade, and a reworked floor plan.

2. ANDREA GOLDMAN DESIGN CHICAGO
A Pine Lake, Wisconsin, home now offers ample room for entertaining and comfortable living with updated finishes such as painted beams and whitewashed oak floors.

3. THE DESIGN ATELIER SOUTHEAST
The environment drove the earthy palette of this Clarkesville, Georgia, getaway, which was remodeled in collaboration with architecture firm Pritchett + Dixon and builder SJ Contracting.

4. NEIGHBOR INTERIORS HOUSTON
To accommodate a growing family, this Southlake, Texas, abode gained square footage by extending the main living area. The interior spaces speak to the property's generations of family history but support its current inhabitants comfortably.

5. JENNIFER ROBIN INTERIORS SAN FRANCISCO
This 1880s Healdsburg, California, home emerged after a two-year renovation with interiors that reflect an updated take on a Victorian farmhouse but with some industrial twists.

6. CCM ARCHITECTURE & CONSTRUCTION PACIFIC NORTHWEST
While a landmark in Malibu, Washington, this Gothic-style barn had fallen into disrepair. To revive it, the walls and roof were pulled back into alignment, rotten trusses were replaced, and reclaimed lumber and Cor-Ten steel now clad the exterior.

7. ANDERS LASATER ARCHITECTS SOUTHERN CALIFORNIA
This Laguna Beach, California, home benefited from a face-lift that revamped the layout, moved the cramped stairway near an outside wall and pierced the kitchen ceiling with a skylight.

PHOTOGRAPHY: HEAL ESTATE PHOTOGRAPHY; THE BROOKLYN HOME COMPANY; MARY WELLS; CHIEFF LEVY FISCHMAN ARCHITECTURE + DESIGN; CHARLE GARCIA; JOHN GRABLE ARCHITECTS, INC.; DICK BUILDNER; PAUL DREWETT WORKS; ERIC KRUK

8. KA DESIGNWORKS COLORADO
The reimagining of this Aspen, Colorado, home had three goals: open the structure to the impressive mountain views; create a stronger connection to its context through material palette and textures; and enhance the outdoor spaces.

9. HARRISON DESIGN LOS ANGELES
Inspired by its natural setting and European design, this Santa Barbara home boasts a reconfigured floor plan to facilitate easy entertaining and a luxurious materials palette of reclaimed wood floors, antique French stone and intricate ceiling details.

10. P&H INTERIORS PALM BEACH + BROWARD
To update this Boca Raton, Florida, home, curving, Mediterranean lines were eliminated in favor of a more orthogonal direction. Taupe tones balance heavier architectural features, while glass, mirror and metallic accents provide an edge.

11. THE BROOKLYN HOME COMPANY GREATER NEW YORK
It took two years to transform this 1854 Greek Revival Brooklyn brownstone from 10 condo units into a single townhome. In the living room, a custom marble fireplace feels congruent with the home's history.

12. CHIEFF LEVY FISCHMAN ARCHITECTURE + DESIGN MIAMI
To modernize the layout of this Miami Beach home, the media room now opens to the living room. Walls painted a dark blue give the space its own presence.

13. JOHN GRABLE ARCHITECTS, INC. AUSTIN + SAN ANTONIO
Preserving this San Antonio home—a 1930s structure of cast-concrete blocks—required removing all previous additions. The new series of one-room-wide gables recalls the building principles of the era in which it was first built.

14. DREWETT WORKS ARIZONA
With a farmhouse style that nods to the surrounding neighborhood's agricultural roots, what was once an oddly-shaped outbuilding on this Scottsdale, Arizona, property is now an entertainment pavilion complete with bi-fold doors, a fireplace and a bar.
